"I was working in a multinational company when my friend invited me to be a franchisee of The Generics Pharmacy. The franchise was affordable, so I decided to invest my life-savings and follow my dream of having my own business. It was a huge risk for me! I opened my first branch in 2008, and in less than three months, I got my ROI (return on investment)."

Jojo Macua

TGP franchisee since 2007
with 38 outlets in Luzon and Mindanao

"TGP has always been close to my heart, being one of the first franchisees way back in 2008. I believe in the Founder's vision of providing access to quality healthcare to the Filipino masses that we serve. I left the corporate world to handle my growing TGP franchise."

Engr. Lirio Bantayan

TGP franchisee since 2008
with 12 outlets
